## RESPONSE TO NOTIFICATION OF MISSING REQUIREMENTS UNDER 35 U.S.C. 371 IN THE UNITED STATES DESIGNATED/ELECTED OFFICE

MS PCT Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Dear Sir.

In response to the Notification of Missing Requirements mailed June 9, 2006 ("the Notification"), Applicant respectfully submits (i) a Declaration for Patent Application, and (ii) a copy of the Notification.

The Notification indicated that a Sequence Listing (in paper and computerreadable forms) in compliance with 37 CFR 1.821-1.825 is required. Applicants respectfully disagree. The present application does not disclose any nucleotide or amino acid sequences that would require the submission of a sequence listing. The only mentions of nucleotide or amino acid sequences found by the undersigned occur at pages 13 (lines 18-21) and 73 (lines 6-7), where certain sequences disclosed in an issued U.S. patent are mentioned, but this reference does not constitute a "disclosure" of such sequences for purposes of compliance with 37 CFR 1.821-1.825. Accordingly,
